

## Motorcycle Crash, Car Accident Mar 4th

A Mancelona couple was injured Saturday when their motorcycle went out of control on a curve on County Rd. 612 near Batterson Rd. The Frederic ambulance crew and Crawford Co. Sheriff Dept. assisted in transporting the couple to Mercy Hospital.

Sunday at 10:43 p.m. two cars collided head-on along I-75 Business Loop south of M-72 East but no injuries were reported.

A Frederic man was injured and taken to Mercy Hospital June 27 after a car reportedly forced him off the road. David Myers, 31, reportedly had his car forced off Old 27, 1.3 miles north of M-93 by an oncoming vehicle about 11:50 p.m. The accident is still under investigation.

On June 29 a Dearborn man was injured while diving into water two feet deep off a dock by Danish Landing on Lake Margrethe. David Hales, 26, was taken to Mercy Hospital for treatment of neck injuries.

## Fire Destroys Beaver Creek Home

A fire apparently started by faulty wiring destroyed the residence of Eugene and Dixie Lobsinger in Beaver Creek Township Saturday.

The blaze was reported at 1:14 p.m. July 2 at the home along Five Mile Rd. The Beaver Creek Fire Dept. and Crawford County Sheriff Dept. responded.

## Calling All Musicians

### Newly Organized Community Band Meets Thursday Evenings

The Crawford County area now has a new organization, a Community Band. Membership in the band is open to anyone in the area who would like to play. The band, which is under the direction of Mr. LeRoy Christian, meets every Thursday evening at 7:00 p.m. at Hanson Park. Even though the band is off to a great start, more musicians are needed to fill out the instrumental sections. If you were once a band member back in high school, and you would like the opportunity to play once again, just for the fun of it, why not come out Thursday evening and sit in. If you would like more information about the band, or if you would like to play but do not have an instrument, call Hanson Park at 348-9266.

## Army Ammunition Displayed Downtown

The Army E.O.T. Team at Camp Grayling, in cooperation with the Sheriff's Department and Larry McNamara, have made arrangements to display various types of army ordinances used by the Military at Camp Grayling. In the interest of public safety, Camp Grayling urges any citizen finding such objects along roads, in fields, etc., not to disturb the item, but to contact Camp Grayling (348-7621) or the Sheriff's Department (348-6341) immediately. This display can be viewed at Mac's Drug Store, downtown Grayling.

## Boating Class Offered

There will be a Marine Boating Safety Class held on July 7th and 8th, at the Grayling Fire Barn located on James Street in Grayling. Classes will start at 9 a.m. and run to 11:30 a.m. Children 12 years old or older are urged to attend. Adults are welcome.

For further information, call the Crawford County Sheriff Department 348-6341.

## No Cost for Compactor Tickets After July 1

Grayling Township residents will have free dumping at the compactor after July 1.

Grayling Township Supervisor Bernie Fowler said the township board unanimously voted recently to provide free compactor service beginning July 1. Tickets for several dumpings currently cost \$1.

Starting in July, residents will receive an annual ticket. Fowler said the township will not lose a lot of money providing the free service and will save some office costs by giving out annual tickets.

## Range Firing Conducted

Range firing will be conducted at Camp Grayling during the period 5-12 July 83.

Firing will be in the following areas on the dates and times indicated.

The Small arms ranges located west of Lake Margrethe, north of Howe Rd, east of the gas pipeline and south of Portage Creek. Firing will begin at 8:00 a.m. on 11 July 83 and cease at 8:00 p.m. on 12 July 83.

The Mortar Range located south of main post, bounded on the west by Cadillac Rd and on the east by Carrier Rd. Firing will begin at Not Scheduled and cease at Not Scheduled.

The Demolition Ranges located south of Howe Rd, west of the Crawford County Line, north of Daniels Road and east of the gas pipeline. Firing will begin at 8:00 a.m. on 11 July 83 and cease at 8:00 p.m. on 12 July 83.

The Range 30 complex located north of North Down River Rd, east of Jones Lake Rd, south of County Rd 612 and west of Damon Truck Trail. Firing will begin at Not Scheduled and cease at Not Scheduled.

The Range 40 Complex located north of County Rd 612, east of Guthrie Lake, south of Old State Rd 618 and west of County Rd F97 (Twin Bridge Rd). Firing will begin at 9:00 a.m. (Daily) and cease at 5:00 p.m. (Daily).

The ranges will be closed to the public during these periods and all persons are warned to keep out of the areas identified.

## Aerial Display

A flying and diving show put on at the Grayling City Park Sunday using a rope swing entertained July 4th crowds.

## Maple Forest Votes Monday On Fire Protection Millage

Maple Forest Township residents go to the polls Monday, July 11, to vote yes or no on a proposal for additional millage for fire protection.

The proposal asks for one mill for one year to help pay for fire coverage for township residents. The township has no fire dept. and buys protection from Frederic Township. The township is also negotiating with Otsego Township about protection for the northern half of the township.

Polls open 7 a.m. to 8 p.m. at the Township Hall.

## Workfare Project Cleans Area Roads

A month worth of hard work in hot weather may have been ruined by one three-day holiday weekend and careless motorists.

During part of May and June, five county residents on work relief through the Department of Social Services picked up trash along roads going in and out of Grayling. One worker earned distinction by hard work through the project directed by the Crawford County Board of Commissioners and picked up more than 200 bags of garbage.

In one day he collected 31 bags, but instead of applauding him, careless motorists continued adding to the roadside trash. At the end of a hot day under the sun, he went back along the road he had cleaned and found three more bags of trash thrown out since he had passed.

The 4th of July weekend may have covered up most of efforts of the workers.

## Holiday Festivities Draw Large Crowd to Grayling

A large number of tourists visited Grayling over the 4th of July weekend - perhaps the most holiday visitors in the last couple of years.

"The 'Say Yes to Michigan' campaign might finally be taking hold," Joyce Kolka Grayling Chamber of Commerce director said. "The number of tourists was definitely up. There were much more visitors in town than last year."

Kolka said the good holiday crowd was encouraging for the area and

she hopes the Grayling Milltown Festival will also draw well.

"We've really been promoting the festival downtown."

Grayling Police Chief Peter Stephan said traffic was heavier than the last couple of 4th of July weekends and northbound traffic remained heavy later into the weekend than normal.

He said traffic back-up Sunday caused by the parade was minimal compared to what it could have

been if the parade was held on Monday or the last day of the holiday weekend.

Although the fireworks drew a large crowd Sunday night, Stephan said no serious accidents occurred.

Despite the large crowd Sunday, Stephan said a couple of downtown store-owners he talked to reported business peaked about 2 p.m. Sunday.

Stephan said the busiest traffic years for Grayling for 4th of July holidays were during the mid-70's.

## Grayling Hatchery Tops 10,000th Visitor Mark

A busy 4th of July weekend pushed the Grayling Fish Hatchery over the 10,000th visitor mark in only its six week of operation.

Fish Hatchery manager Howard Hatfield said 2,800 persons stopped to see the trout Saturday, Sunday, and Monday topping the 1,500-person mark set for the Memorial Day weekend.

The hatchery re-opened as a tourist attraction late in May after being closed since the mid-60's.

Improvements continue at the facility with electricity installed and a new telephone (348-

7386) connected. RSVP volunteers are helping during visitor hours and DSS workers are helping as night watchmen.

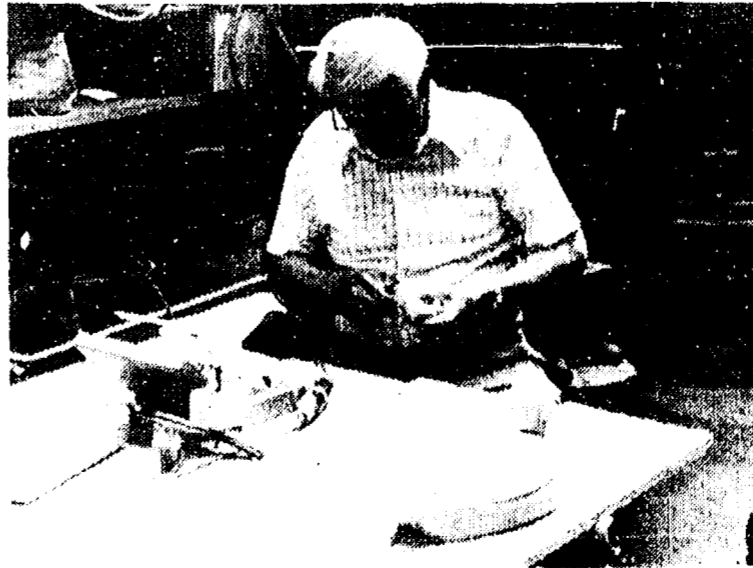

Manager Hatfield said no problems have been experienced so far with caring for the fish. He said he worried a bit about rising water temperatures during the long hot and dry spell but recent rains and Tuesday's cold weather cooled the waters again.

A totem pole attraction has been added at the hatchery and signs routing visitors to the hatchery have been placed around the city.

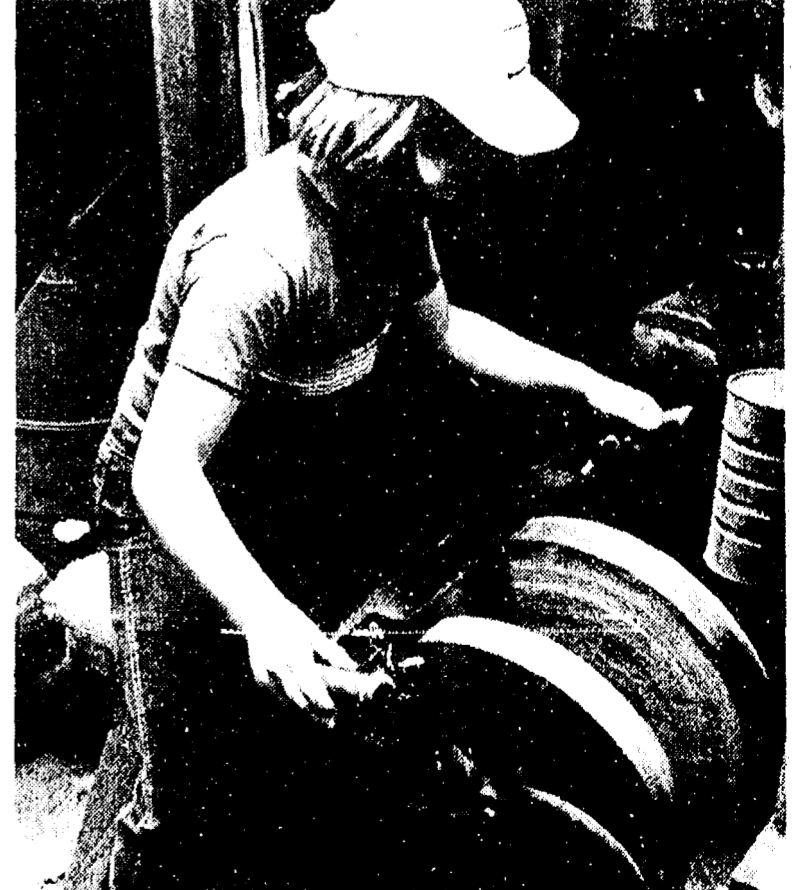

## Young & Old Enjoy 'Greenfield Village' Of The North Woods

**SAWMILL OPERATIONS**—Using engines once used by Grayling pioneers Henry Hayes and Marvin Miller, Robert Hartwig has built a sawmill and shinglemill that he uses to cut logs for friends. Hartwig restores steam engines and collects old hand tools and simple machines, and they're all on display when he and friends conduct a tour free of charge for senior citizens, school children, church groups, and others.

**HANDCARVING AND BASKETWEAVING...**...are more of the traditional skills displayed at Hartwig's miniature Greenfield Village. Also on hand are a small steam engine car and Model T — both used to give rides to visitors. Muzzle-loading gun demonstrations, log sawing, and shingle cutting are also performed for visitors. More than 50 senior citizens from RSVP enjoyed a tour recently.

**GRINDSTONE WHEEL**—A young girl tries sharpening a blade on an old-fashioned grindstone wheel operated by a foot pedal. Robert Hartwig, a retired teacher who collects the old tools and machines, says he can teach children more history in one afternoon at the sawmill than they could learn from a week's lessons in a classroom. Fourth graders visited the sawmill last spring and performed science projects down at the lake and in the woods along with learning first-hand about apple-cider mills, steam engines, sawing logs, and grindstones.

CHILD VISION  
Dr. Milton Ross

Q. My glasses look blurry for a long time after I take off my hard contacts. Should I tell my eye doctor?  
A. Yes, do so because this may indicate that the lens is too tight, in which case you will be relieved when the inside curve is flattened. Another reason may be insufficient tear exchange. For this condition, the tear exchange may be normalized by flattening the inside edge to make the lens looser.

If you have a question for Child Vision, write to Dr. Milton Ross, P.O. Box 639, Frankfort, Kentucky 40602.

## The Bible Speaks

From Calvary Baptist Church

### DON'T LET DIFFERENCES DESTROY

Romans 14:13-15

Romans 14:13a gives a good summary of the preceding 12 verses: "Let us not therefore judge one another any more." Just as the first 12 verses of Romans 14 stressed our Christian liberty in nonessentials, even so, the last 11 verses stress our responsibility to both God and man in the exercise of that Christian liberty.

1. My differences which may hurt others should be more important to me than the differences of others which may offend me. We should follow the golden rule of Matthew 7:12 in facing the differences between Christians in nonessentials. "Let us not therefore judge one another any more: but judge this rather, that no man put a stumblingblock or an occasion to fall in his brother's way." Verse 13. Our primary concern over differences should be over the hurt of others, rather than our own feelings.

2. Recognize that your standards and convictions concerning a nonessential may not be the standards and convictions of another Christian. "I know, and am persuaded by the Lord Jesus, that there is nothing unclean of itself: but to him that esteemeth any thing to be unclean, to him it is unclean." Verse 14. In nonessentials where the Bible does not clearly speak, it is up to the Holy Spirit to apply the principles of the Bible to the lives of individuals. Man

made rules produce hypocrisy rather than convictions.

3. We should allow the love of Christ to guide us in dealing with differences in nonessentials so we will not grieve or destroy the faith of a brother in Christ. "But if thy brother be grieved with thy meat, now walkest thou not charitably. Destroy not him with thy meat, for whom Christ died." Verse 15. Christ loved us so much He gave His life to save us from our sins and to give us peace, joy and blessings for all eternity. The love of Christ should cause us to give blessings rather than grief to others. The love of Christ should cause us to edify or strengthen other Christians, rather than to destroy them.

Even in areas of Bible essentials where Christians often disagree, it is extremely important that we speak the truth in love. "That we henceforth be no more children tossed to and fro, and carried about with every wind of doctrine by the sleight of men, and cunning craftiness, whereby they lie in wait to deceive; But speaking the truth in love, may grow up into him in all things, which is the head, even Christ." Ephesians 4:14, 15. (adv.)

## Cesarean Birth Support Group

There will be no July or August meetings of the Grayling Area Cesarean Birth Support Group. The group will meet again on September 8. Time and place will be announced. Future meetings will be held on the second Thursday of each month and speakers, topics and meeting places in Roscommon, Grayling, and Gaylord are welcome.

We would like to reiterate the purpose of the Group: we formed to support Cesarean birth parents and to provide sources of information on Cesarean birth. Expectant parents usually have prepared themselves for the "ideal" birth - family-centered, no complications. As Group members know from personal experience, our expectations are not always realized.

First-time Cesarean parents are usually surprised and unprepared to deal with physical and emotional disappointments of this necessary lifesaving birth method. Cesarean support groups offer the opportunity to talk about their experience and feelings, to learn more about "what happened", and to help each other.

## House Call Water Safety

On a hot summer day, there's nothing nicer than being on a beach in the sun with a cool breeze and the fresh clean water which Michigan is blessed with. Unfortunately, this can lead to tragedy - in 1981, 183 persons drowned. Many of these deaths could have been prevented if more people knew how to behave safely in or near water.

When swimming, stay fairly close to shore and swim parallel to it. That way you can get into wading depth quickly, if necessary - or get help quickly if you need it. Also, never jump into strange waters - always check first for depth and look for underwater obstacles. Finally, never go into the water during a thunder storm - if lightning should strike the water near you it can be extremely dangerous.

As far as rescuing someone else is concerned, only trained lifesavers should attempt it. Even if you're a trained lifesaver, don't try to make a swimming rescue if another, simpler method can be used. For example, without going into the water at all, you may be able to extend an arm, a branch, an oar, a towel or a fishing rod to a drowning victim. Your chances of success are much better than if you must swim to the rescue.

### RSVP Reports

by Sherry Haag, Dir.

Welcome to news of the Retired Senior Volunteer Program. One of the more interesting speakers at the ACTION Regional Conference I attended in Chicago, was Dr. Charles Warfield. He is an Associate Professor in the Education Leadership Dept. at Western Michigan University in Kalamazoo. Formerly the Chief of Staff and Director of Program Operations at Operation PUSH in Chicago, he has extensive experience as a consultant for various programs including Upward Bound, Job Corps, Headstart, and numerous public school systems. He received his Doctorate in Instruction and Curriculum from the University of Oregon in Eugene. Dr. Warfield's workshop was entitled, "You Can't Teach What You Don't Know and You Can't Lead Where You Won't Go." He explained your self concept is composed of all the beliefs and attitudes you have about yourself. They actually determine who you are! They also determine what you think you are, what you do and what you become. Dr. Warfield explored self-esteem and its effects on working with volunteers. Picture yourself wrapped in barbed wire. The wire represents negativism, thoughts, actions or your concept of yourself. We must break out of this barbed wire to be able to live as whole human beings and enjoy the talents and abilities we all have. Don't let others do our thinking for us!! Do what we know is right for us as an individual. Keep a positive mental attitude.

If you are 60 years of age or older and interested in becoming an active part of the community, give RSVP a call. We have many challenges and opportunities for you to stretch yourself. We have received a request for a volunteer to accompany a wheelchair patient (on Dial-A-Ride) to Gaylord for water therapy. Duties are light with no lifting involved. Basically, just keeping the patient company for the trip there and back. (Bring your own swimsuit and take advantage of the pool.) Day: Thursday. Time: Noon to approx. 3:30. Interested? Call 348-4341 or 348-8322. Substitutes are needed for the Historical Museum, Hartwick Pines and The Grayling Fish Hatchery. Especially need volunteers for Fish Hatchery on Sat. for the month of August & Sun. during July and August. 348-4341 or 348-8322.

### Doodles From The Tall Timber

Wendell L. Hoover  
Park Interpreter

Among the many plants putting forth leaves at the present time is the shrub Witch Hazel. One source I have calls it a small tree and well it may be since this particular source claims it may reach a height of twenty-five feet. This shrub is a native of America, having a range from Nova Scotia to Florida and west to Texas and Minnesota. This plant is unusual in that it blooms in late fall amid its own dying leaves and then matures its fruit into a second fall. The flowers are bright yellow, flag-like clusters, some to three-quarters of an inch long. When the seeds are ripe, they are expelled violently from the nut-like fruits which are about one-third of an inch long. The leaves of this plant have short stems or petioles; they may be five inches long, with irregularly shallow-toothed margins. The leaves are also conspicuously veined. The leaves and twigs are a source of witch hazel that is commonly used in allaying pain. This tincture is made by soaking the leaves and twigs in alcohol. While this tincture does not have a perfumed odor, it makes an excellent after-shave lotion. Since the leaves do not wilt readily, it is recommended for use by the Army as green camouflage, just as it once was used by both the Union and Confederate armies.

### Tips For Staying Cool

The first few hot days of summer have reminded Michigan residents when the heat comes, it can be difficult to remain comfortable.

Willis C. Allen, Consumers Power Company's district manager in the Cadillac district, has some helpful hints to minimize the cost of staying cool.

"Even if your home or apartment isn't air conditioned," says Allen, "by following a few simple measures you can enjoy a more comfortable summer."

First, take advantage of nature. A cool breeze is nature's form of air conditioning. Open windows wide at night to allow the evening air to circulate through the home. Keep them open all night. Sleep with a blanket if you must. Then, when you wake, close the windows to seal in the cool air.

Keep direct sunlight out by closing drapes and shades. Window and door awnings can also help keep the heat away.

Avoid using heat- and moisture-producing appliances during warmer times of the day. Dry clothes on an outdoor line. Use your barbecue grill. Run the dishwasher at night. Remember, any appliance, even a vacuum cleaner, produces heat.

Keep air conditioning with portable fans. Use kitchen and bathroom exhaust fans to remove excess heat. An attic fan can vent heat to the outside, making the rooms beneath the attic cooler. With a properly installed attic fan daytime attic temperatures can be reduced 30 to 40 degrees.

Insulation and storm windows keep your home warm in the winter, and cool in the summer. If storm windows are kept on year-round, make sure they can be opened to allow cool night air to enter.

If you have central air conditioning, set the thermostat to the warmest comfortable temperature. Raising the setting from 75 to 80 degrees can save about 13 percent on your energy usage for air conditioning.

While the air conditioner is operating, close off registers to unused rooms such as bedrooms, and keep doors and windows to these rooms closed.

If you have a window air conditioner, shut doors to other rooms and close hot air registers to keep the cool air from flowing to the basement.

Air conditioning units should be of proper size for the area being cooled and should be placed on the north side of the house or in shaded areas.

**House Call****Sun & Skin Cancer**

Sometimes it seems that we've become a cult of sun-worshippers, or perhaps more exactly, suntan worshippers. Many of us seek out the sun whenever possible. During the winter, we even go to suntan parlors to soak up ultra-violet rays. We believe a suntan adds to our attractiveness and is healthy. Whether a tan makes you look better or not is a subjective judgement but excessive exposure to ultra-violet rays can be harmful.

An immediate result of too much sun is, of course, a severe burn. But another result is prematurely aging skin. We seek a tan to give us young vibrant-looking skin - we end up with wrinkles and a leathery look. Because, in time, the sun weakens the skin's elasticity. It can also cause dark patches and scaly growths which may be pre-cancerous.

That leads to the most serious result of regular overexposure to the sun: skin cancer. Almost all of the 300,000 cases of skin cancer developed by Americans annually are considered to be sun-related. Fortunately, when found and treated in time, these skin cancers are completely curable.

Fortunately, too, skin cancer has visible early warnings: a sore that doesn't heal; a change in size or color of a wart or mole; or development of any unusual pigmented area. Most often, these won't be cancer but only a doctor can determine that.

The best cover up available, if you must sun bathe, is a sunlotion that contains PABA (para-amino-benzoic-acid). Such a lotion absorbs ultraviolet rays and allows a gradual tanning. But even with a PABA sunscreen, a good general suntan program is 15 minutes the first day and 5 minutes more each day thereafter until you have a good base tan. In any event, avoid sun reflectors - they expose the most delicate facial areas under the chin, eyelids, and earlobes.

To sun or not to sun is something you have to decide for yourself. But knowing the effects of repeated overexposure can help you decide whether a careless pursuit of a tan is worth damaged skin or the threat of skin cancer.

### Assessments Must Be Adjusted For Creative Financing

Warren M. Hoyt, Executive Director, MPA

Property tax assessors must take into consideration the impact on sales prices of "creative financing" by home sellers, the Court of Appeals recently ruled.

The 2-1 ruling involved disputes over residential assessments in 1982 when convention finance interest rates were in the high teens, but since then rates have dropped and so-called creative financing is used less frequently.

The decision directly involved appeals brought by three counties which challenged the refusal of the State Tax Commission to take into account creating financing.

State officials had not yet fully assessed the impact of the ruling, but at least for the homeowners in those counties, it would mean refunds or credits for 1982 taxes because the property assessments were too high.

If applied statewide, it would mean tax reductions of \$30-60 million, with the state required to replace \$10-20 million of that to local governments under the revenue sharing formula and to schools under the school aid formula, said Robert Kleine, director of the Office of Revenue and Tax Analysis.

Kleine said in 1982, an estimated 95 percent of home sales involved some kind of seller-financing, which resulted in total state equalized valuation (at \$57.5 billion) being an estimated 1.2 percent higher than it would have been under conventional financing, he said.

Kleine added that seller-financing occurs now in only about 20 percent of home sales and Assistant Attorney General Ross Bishop said the "creative financing" issue was not raised in the 1983 equalization process.

Judges Thomas Burns and

Jerome Bronson (in Wayne County v. State Tax Commission) ruled the constitution requires all property owners to be taxed at an unvarying standard. Since seller-financing with extended credit terms adds as much as 10 percent to the sales price, the court said it would be unconstitutional to subject buyers of homes under those terms to higher taxes than buyers of homes of equal value under a conventional arrangement.

Although the Legislature did not approve proposed legislation requiring seller-financing be taken into account when assessing property, the court said the lawmakers have no power to prohibit those adjustments.

The court ordered the Tax Commission to develop a method to account for creative financing, although Bishop said he was unsure whether that was to apply to all counties, or just to Washtenaw, Lapeer and Oakland counties, which initiated the lawsuit. Ingham and Livingston counties filed supporting briefs.

Dissenting Judge Glenn Allen Jr., who noted that not all home sellers who financed the transaction raised the price of the home, said the availability of financing at favorable terms always affects property prices.

Property sold for cash would generally sell for a lower price, but that does not mean all credit sales should be discounted, he said.

All three judges agreed that although state law provides for setting property values over 30-month or 12 month periods, sales figures closer to tax day can be given greater weight during a declining or rising market to provide a more accurate picture.

## Kucharek, Davis United

Marriage vows were exchanged by Janet Marie Kucharek and George Van Nest Davis, II in a double ring ceremony. The Rev. S. David Bailly, of the Pine Community Church, performed the ceremony by a rocky mountain stream at the home of the groom's parents at one o'clock in the afternoon on June 4, 1983.

The bride is the daughter of John & Madeline Kucharek of Grayling. The groom is the son of George C. and Mary Ann Davis of Deer Creek Canyon, Bailey, Colorado.

The bride, given in marriage by her father, wore a 35-year-old wedding gown belonging to the groom's mother. The dress was Chiffon over taffeta with lace and embroidered trim, and her hat, which she helped make, was of floral lace and tulle, styled in the 1890's. For her bouquet she carried white daisies, white sweet peas, and baby breath.

Matron of Honor Marlaene Mitteldors, friend of the bride, wore a casual dress of blue and carried a bouquet of Blue Columbine, Sweet peas, and Baby Breath. The flower girl, Erika Lynn Mitteldors, daughter of the Matron of honor, wore a long blue satin dress with matching sash and carried a basket of carnations and rose petals.

Richard Davis, brother of the groom served as best man, Adam Davis, son of the groom, served as ring

bearer. Michael Kucharek, brother of the bride, was usher.

A reception put on by both the bride & groom's parents was held immediately following the ceremony at the outdoor setting. The couple honeymooned at Lake Towell and then at the Grand Canyon. They will be making their home at Loveland, Colorado.

Guests attending included the grooms grandmother from New Jersey and friends & relatives from New Jersey, Mich., Nebraska, Wisconsin, and Utah as well as many local guests from Colorado.

# Chamber Chatter

By Joyce Kolka

The month of July will now bring about a more furious pace in laying the final plans for the Milltown Festival. Word has it that there has been a recent addition to the events which will certainly be unique in the history of the summer fete. A Mud Wrestling Contest is the brainchild of Sherry Hanson who with John Cherven has been heading up the fundraisers for the festival. Sherry has for some time advocated the event as a fund raiser but has only recently been able to put together the details of a ring, the mud and a method for handling the contest. Prizes and the novelty of wrestling in the sticky goo will be the attraction for obtaining candidates.

An annual contest not previously emphasized in this column is the Milltown Run to be held on Saturday, August 6th beginning with a Fun Run at 8:30 a.m. and the Milltown Run at 9:00 a.m. Chairman for the run is Mike Hauxwell and it is sponsored by Northern National Bank and Mercy Hospital in cooperation with Crawford County American Cancer Society.

Also on the 6th, there will be a Dunk Tank where noted citizens will volunteer to be the targets for a good natured dip.

On Wednesday, August 3rd, in addition to all of the kids events, some lucky boy and girl will have their name drawn to receive some very nice gifts and they shall be called the Lucky Milltown kids.

Incidentally, there are a number of event chairmen who have not reported the details of their event. In order to complete the program and to use the event in downstate promotions it is necessary to have exact times, participants, registration details and other pertinent data. That information should be communicated to the Chamber office. It is not necessary to be elaborate as long as the information is outlined.

For those who haven't browsed through it, the July Travelers Guide is loaded with Grayling and Crawford County information to tourists. The publication receives wide circulation at rest stops along the interstate.

Speaking of publications, the Grayling/Crawford County Tour Guide booklet is now available. That promotional booklet is devoted to this area and its outdoor offerings. The 20,000 copies will not only be distributed locally but also handed out at various spots and boat shows this winter.

The Executive Committee of the chamber is considering joining the newly organized and expanded Michigan Snowmobilers Association. The group is urging the formation of chapters in various communities and banding together statewide to obtain some legislative clout. The committee is anxious to obtain comments from persons and businesses about the idea of joining the association. Comments should be called in or written to the chamber office.

The second major National Guard encampment is at hand and we would like to take the opportunity to welcome the first of two groups of Ohio National Guard members. This guard division has been at Camp Grayling for many years and so it is like welcoming an old friend back to Grayling.

Our congratulations go out to Bernie Engel for being named Outstanding 1983 Senior Citizen. Certainly those congratulations also go to Laura Johnston, 1st runner-up and to Howard Schmidt, 2nd runner up. They certainly can tell with only a few votes separating the three candidates how well loved they are in the community.

Our best wishes go out to Randy Thompson who this week takes over the presidency of the 66 member Grayling Rotary Club. Under Randy's direction the Club will take part in some of the pre-race festivities at the July 29th AuSable River International Canoe Marathon.

Our congratulations also go out to Ray Schuster and Helen Kimbrel, proprietors of the Schuster Cheese Haus and Deli, on their Grand Opening last Thursday. For those who are not familiar with the new establishment, the location is on M-93 south of the blinker light as one is headed toward Camp Grayling. It was formerly the Reptile House. A good crowd was on hand to help cut the ribbon to open the new business. The Chamber welcomes them into its membership along with Pat Callahan of Callahan's Service, Inc., located at the junction of I-75 Business Loop and M-72 West. Welcome aboard folks, we're looking forward to working with you to help Grayling and your businesses grow.

## Attend the Church of Your Choice Families Are Fun

Dad didn't get into this picture. He was holding the camera, telling us to smile.

Families are fun! The best days are when we do things together. And there are lots of important things we need to do together.

Like worshipping God.

Family life isn't just smiling and togetherness. It is growing in conviction and character. Each week that we spend in our Church or Synagogue, we are building the strong spiritual foundation of our family's future.

A resolution proposed by Michigan Consolidated Gas Co. regarding de-regulation of gas prices was presented to Council.

The resolution is in support of the Natural Gas Consumers Relief Act. Councilman Sabin reported on the meeting at which the resolution was proposed.

Motion by Sabin, supported by Sloan that:

WHEREAS, the cost of gas has risen over 160 percent in the last six years, and

WHEREAS, many consumers, particularly those on fixed and low incomes, are unable to afford these increased costs, and

WHEREAS, these price hikes come, month after month, in spite of abundant supplies of natural gas and declining demand for them, and

WHEREAS, such price increases are the result of both federal legislation - namely, the Natural Gas Policy Act of 1978 - and outdated industry practices, and

WHEREAS, a bill, called the Natural Gas Consumer Relief Act, has been introduced in Congress, which would curb unwarranted increases in the cost of gas, and

WHEREAS, that bill would roll ceiling prices on natural gas back to January 1982 levels - or some 15 to 20 percent - and maintain controls on "old" inexpensive gas, and

WHEREAS, that bill would ban all automatic price escalators and limit take-or-pay contracts between producers and pipelines to 50 percent of obligation, and

WHEREAS, that bill would force gas producers and pipeline companies to renegotiate all high-priced contracts immediately and penalize gas pipeline companies which failed to buy the cheapest natural gas available, now, therefore,

BE IT RESOLVED, that the City Council of the City of Grayling supports the Natural Gas Consumer Relief Act and urges Congress to do the same, and

BE IT FURTHER RESOLVED, that copies of this Resolution be sent to all members of the Michigan Congressional delegation, the State Energy and Natural Resources Committee and the House Energy and Resources Committee.
